THIS IS UNEVALUATED INFORMATION

25X1

1. A hard surface road [7924] runs from Krakow west northwest to Katowice and Sosnowiec via Trzebinia and Ohrzanow. The road has a good solid foundation and is considered to be a first class highway. It is an all weather road and can absorb heavy usage. The highway is over two lanes in width, has a hand placed stone surface and is in good condition. The terrain through which the highway runs is hilly.
2. A loose surface, all weather road [7909] runs from Trzebinia north northeast to Miejskie. It is over one lane in width and is capable of absorbing heavy usage. It has a natural solid foundation of rock and sand and is gravel surfaced. As of September 1958, a loose surface, all weather road [7909] is under construction and will run from Trzebinia northward to Siersz-Wodna. It will be over one lane in width, capable of absorbing heavy usage and will be gravel surfaced. Prior to 1958 this was a dry weather dirt road.
3. A number of loose surface, dry weather dirt roads [7935] run in the vicinity of Trzebinia, Mlyn, Piek, Mloszowa and Ostra Gora. The dirt roads are over one lane in width and in fair condition. The roads occasionally are able to bear heavy usage. The dirt roads have a solid natural foundation of rock, gravel and sand. Farmers and villagers maintained these dirt roads.

INFORMATION REPORT INFORMATION REPORT

**NOFORN** **NO DISSEM ABROAD** **LIMITED**  
**LIMITED:** Dissemination limited to full-time employees of CIA, AEC and FBI; and, within State and Defense, to the intelligence components, other offices producing NIS elements, and higher echelons with their immediate supporting staffs. Not to be disseminated to consultants, external projects or reserve personnel on short term active duty (excepting individuals who are normally full-time employees of CIA, AEC, FBI, State or Defense) unless the written permission of the originating office has been obtained through the Assistant Director for Central Reference, CIA.
